## *biking*

We are not saying big words about this fantastic adventure and will send you straight to the official website of the Stoneman Miriquidi. The options for experiencing the Stoneman are briefly listed for a quick overview. In addition, as Erzgebirge it makes us a bit proud when a Tyrolean MTB professional is so enthusiastic about our landscape that he installs the only Stoneman in Germany here. This is only available once per country. Jihaa! Get on your bikes or skis and off you go!

### **Stoneman Miriquidi MTB from April to November (depending on the weather)**

THE adventure for mountain bikers here in Saxony. Oh, all of Germany. For all MTB fans here is an insight in advance.

South German employees were also enthusiastic about the tour in 2017 and published an article about a tour with Roland Stauder.

### **Stoneman on snow – without a bike, but with skis as a replacement**

What do you do when you can no longer cycle on roads and paths in winter? Right -you strap on your skis and look at our landscape from a different perspective. If you want to go on a guided tour, the Sehmatal ski marathon professional and Stoneman fan Toni Escher is on the go.

## Stoneman Road from April to November (depending on the weather)

For all those who need the feeling of asphalt under the wheels, this variant is recommended.

[Für alle, die das Gefühl von Asphalt unter den Rädern brauchen, sei diese Variante zu empfehlen.](#) >
